

#### MOBILITY

Access your files, documents, email, contacts and calendar from any computer or mobile device.

#### FLEXIBLE PRICING

Sign up for the plan that's right for your company. Small, Medium and Enterprise subscription levels are available. Pay only for the services your employees need. Break out of the purchase/upgrade cycle of buying software licenses.

#### SECURITY & PRIVACY

With Office 365 your data belongs to you. It is secure, private and portable. Protected by 5 layers of security and available to you when and where you need it, you can rest assured that your data and documents will remain safe.

## Microsoft Office 365

With Microsoft Office 365, you put your business in the cloud and mobilize your workforce. Office 365 makes it easier to communicate, collaborate, create and share documents and data with colleagues no matter where they are.

Office 365 gives you access to Microsoft's powerful Office suite of applications for a low monthly fee. The cost of setting up and maintaining your workforce can be far less than standard on-site solutions, and it comes with 99.9% uptime, built-in spam filtering and anti-virus protection.

Whether you have a company of 5 or 500 employees, Office 365 can help your business run more efficiently, effectively and affordably. Infogenic Solutions is a Microsoft Cloud Partner, and we're here to help you implement Office 365 for your organization. Please call us today for a free consultation where we will provide a plan for moving your company into cloud computing with Office 365.

## Features & Benefits

- Office Web Apps let you edit documents from your browser, your phone or your computer. Write and edit with your co-workers without emailing back and forth.
- Exchange Online gives you access to your email and calendars from anywhere with 25 GB of online storage. Use your own domain name to reinforce your brand.
- Lync Online messaging and video conferencing with screen sharing lets you reduce travel expenses with online meetings and one-click access from Outlook. Schedule meetings or create them on the fly.
- SharePoint Online can be used to share and access your important documents and files with anyone you choose from anywhere. Use blogs and wikis to keep your organization in sync.
